

Diffflow 2009-2011 Nissan GTR Diffuser Installation Instructions.

Please visit this link to watch our instructional video on how to install the diffuser:

<http://www.youtube.com/watch?v=ron6NIJeaTs> (Search "Diffflow GTR" on YouTube.com)

-
- 1) Put your Nissan GTR on jack-stands so both rear wheels are in the air.
 - 2) Remove the existing diffuser from your car, be careful removing the 4 plastic rear clips.
 - 3) Remove the jack-plate panel from your stock diffuser and put it on your new Diffflow diffuser.
 - 4) Install the new Diffflow diffuser. We've included black replacement bolts. You'll have a few extras when you're done.
 - 5) Take extra precautions while driving out of driveways and speed bumps.

If you have a 2012+ GTR, you can retro-fit a 2011 rear valance / bumper and fit the diffuser. It uses all of the same mounting holes.

THE PURCHASER IS RESPONSIBLE FOR DETERMINING THE SUITABILITY OF ANY AND ALL PRODUCTS PURCHASED.

FOR OFF-ROAD USE ONLY. Purchaser solely responsible for installation and determination of the suitability of any and all products and services obtained from manufacturer and distributor, Diffflow, LLC.
